LONDON:
WALTER V. DANIELL, MORTIMER STREET,

PREFACE.

THIS Catalogue is believed to be the most complete list of portraits issued since that published by Evans, which has long been out of print and has become very scarce. It contains a fair number of mezzotint and other large portraits, but as a rule aims at supplying those adapted to extra-illustrating and kindred purposes.

It is compiled on somewhat different lines from any previous Catalogue, and the copious Topographical Index is believed to be the first attempt of the kind which has appeared.

Mistakes in the dates and other information given no doubt exist, although every reasonable care has been taken to insure accuracy.

The portraits of a certain number of celebrities of all nations have been included, but the history and literature of our own country are so interwoven with those of our neighbours that no apology is needed in introducing them into a catalogue which is chiefly British in contents.

Many of the portraits marked *folio* will cut down to *quarto size*, and similarly those marked *quarto* to *octavo*.

THE PRINCIPAL ABBREVIATIONS USED:—

mezzo.—mezzotint engraving.
w. l.—whole length.
b. l.—before letters.
p.p.—private plate.
autog.—with facsimile of autograph signature attached.
